- **BI and visualisation:** Power BI (data modelling, DAX measures, Power Query), Power Pivot, Tableau
- **Advanced Excel:** pivot tables, SUMIFS, VLOOKUP / XLOOKUP, IFS, charts, dashboards
- **Analysis:** data cleaning and preparation, KPI definition, reporting, presenting results to decision-makers, generative AI (Claude) for data analysis

DATA PROJECTS (2025 – PRESENT)

Minex Africa — mining operations analysis *MySQL*

- Designed a 5-table relational database (sites, employees, ores, extractions, sales).
- Wrote 28 queries across 6 levels (filters, aggregations, joins, subqueries) and 7 KPIs: revenue, extracted volumes, costs, headcount.

PharmaCare Distribution — sales and profitability *Excel*

- Analysed 500 transactions for 2025 (15 products, 5 regions, 5 sales reps): revenue, gross margin, margin rate, stock levels.
- Built an interactive dashboard for management with pivot tables, SUMIFS, VLOOKUP and slicers.

Power BI dashboards *Power BI*

- 4 interactive dashboards (distribution, daily sales, 2026 sales, environmental indicators): data modelling, measures, visuals and filters.

British Airways — customer satisfaction *Excel · Tableau*

- Prepared customer reviews in Excel, then built a Tableau dashboard and an analysis report on satisfaction drivers.

Other projects: Kora Assurances and Kora Distribution (MySQL), NovaShop and DataLendo (SQL), NovaPeople (HR, Excel), TechStore (Power Query). Details at portfolio-nanga.vercel.app
